Frankie, I cannot continue to pretend like nothing is going on. I cannot understand how you can just sit around and let besty try and take down the whole team. Yes, she is just saying things about lance, but it effects us all. You were part of the team just like us. If he is guilty then so are you. The whole thing is so hypocritical. she is attacking our livelihood. A sport that we love and work fucking hard to be to good at. You have not been gone that long. How can you forget?

George, good ride at Zurich, you must still be feeling good or better. Please send me some words how the olympics went? I heard you were the pin trading master. Also how Zurich went, you must have been climbing well to be right up there..thanks...frankie
